Home-School Day 2019

Tuesday, March 5th, 2019 from 10 am – 3 pm

The Downtown Aquarium welcomes home school students and families! Explore the Aquarium exhibits with your family for a discounted rate, participate in an engaging classroom program, and enjoy visits from animal ambassadors.

Pre-registration is required by 4 PM on February 26th. Complete the included registration form and submit with payment to reserve your spot! Both form and payment must be *here* by the deadline, not postmarked. No discounted payment at the door will be accepted – any tickets purchased the day of the event will be full price through the Ticket Office.

CLASSES

****Due to space constraints in our classrooms, we strongly encourage only the registered student remain in the classroom for programs ages 7 and up. Please plan ahead! ****

Boneless Bodies (3 yrs – 6 yrs)

Some animals have no bones! Join us as we learn about jiggling jellies, spiny lobsters and crawly crabs. While playing a fun movement game, students will discover more about how some boneless animals adapt to their watery world.

Fabulous Fish (7 yrs – 9 yrs)

Fish are equipped with amazing adaptations. Using a “Fabulous Fish” costume, students will observe both physical and behavioral adaptations that enable fish to survive.

Tide Pool Treasures (3 yrs - 6 yrs)

Come with us on a treasure hunt to discover some of the amazing creatures that live in tide pools. We will use poetry, movement, and props to explore the ways these animals survive in their specialized environment.

Habitat Highlights (7 yrs- 9 yrs)

Join us as we hike up to the Alpine tundra, trek through the rainforest and then dive into the deep sea. Uncover the secret adaptations that animals in each of these habitats have to survive in their special habitats.

CORAL Communities (3 yrs – 13 Yrs)

A coral reef is a colorful neighborhood home to many different animals. Find out if coral is an animal, plant, or mineral! Learn with us what it takes to be a coral and why so many creatures live together in one place. This class has been adapted so families with students of multiple ages can learn together, so all children in the classroom must be registered and willing to participate!

Sensational sharks (3 yrs - 13 yrs)

Sharks are sensational! Students will learn about how sharks use senses like sight, smell, hearing, taste, and touch to help them survive in the ocean. This class has been adapted so families with students of multiple ages can learn together, so all children in the classroom must be registered and willing to participate!

SQUID: Inside and out (10 yrs+)

Squid are equipped with amazing physical and behavioral adaptations. In this dissection class, students will learn about the unique characteristics of this clever invertebrate by looking both inside and out. Hands-on participation required!

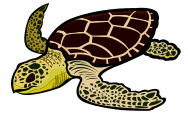

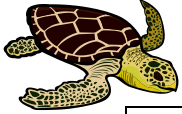

Aquarium: The Inside Story (10+ yrs)

Look behind the scenes at the chemistry, biology, and technology of keeping thousands of aquatic animals healthy and a million gallons of water habitable. Learn about the Nitrogen cycle and filtration!
